YEAR BOOK
1952-1953

Thirtieth Session

Volume Nineteen

President's Foreword

A learned and esteemed Professor in the Faculty of Dentistry, a past president of the Academy, made this statement to a class of dental students on one occasion. He said, "Gentlemen, if you ever reach that point in your practice when you feel that you have mastered dentistry, it is time for you to consider taking a post-graduate course."

We all recognize the wisdom of the above statement. The original organizers of our Academy too, must have recognized the above fact, because they wrote into the constitution as one of the objects: "The advancement of the art and science of Dentistry." Your council have had this object in mind when arranging the programme for 1952-53.

We find ourselves today in a transitional era, an era when the future is somewhat uncertain. It is a time when fellowship, as found in your academy, will be especially stimulating to you and to your official dental organization.

The meetings as outlined within this year book are deserving of your attendance.

ANNUAL DINNER MEETING

ROYAL YORK HOTEL

6.30 P.M.

MONDAY, OCTOBER 20, 1952

Speaker: MARCUS LONG, M.A. Ph.D.

Topic: "The Root of the Matter"

Born in North Ireland, Marcus Long came to Canada in 1925. After a period of extensive travel in Canada and the United States he was graduated from the University of Toronto with the degrees M.A. and Ph.D. in Philosophy.

Thus prepared he became a member of the faculties of Brandon College, Manitoba and also the University of Manitoba. In 1941 he enlisted in the Canadian army and with rank of major, served in Canada, England and Italy. On discharge in 1945 he became a member of the staff of the University of Toronto, and is now Associate Professor of Philosophy.

In 1948 he organized the first International Student Seminar ever organized by Canadians. The first Seminar met in Germany in 1948 with fifty Canadian students from coast to coast present. They discussed world problems with student representatives from sixteen other nations. The Seminar was repeated in Holland in 1949, France 1950, Canada 1951. The Canadian Seminar included students from India and Pakistan.

For the past two years Professor Long has been analysing national and international news each week night on a Toronto radio station.

ANNUAL WINTER CLINIC

LUNCHEON SPEAKER:

JOSEPH McCULLEY B.A. M.A. (Oxon)

Mr. McCulley is Deputy Commissioner of Penitentiaries for the Dominion of Canada with special reference to education and training. He implemented the policy of assisting the inmates to rehabilitate themselves on their return to civilian life. He was appointed to this position in 1947.

Mr. McCulley was born in Glasgow, Scotland in 1900. He came to Canada in 1907. He was educated in the St. Thomas Elementary and High Schools, attended the Ontario College of Education in 1918-19 and taught for a short time in the city of Toronto Public Schools. In 1924 he graduated from the University of Toronto in Honour Philosophy course, was awarded a Massey Fellowship, and attended Oxford University (Christ church) 1924-26 where he graduated in Honour course in Modern History. He was appointed in 1927 Headmaster of Pickering College, Newmarket, Ontario, Boys' Residential School. He served in this capacity until 1947.

Mr. McCulley has a wide range of interests, especially in the youth of our Country. In 1937 he was a member of the Youth Employment Committee with the late Arthur Purvis as Chairman. He proceeded overseas in 1945 as civilian adviser to Khaki University, England, under Department of National Defence. In the years between 1936-46 Mr. McCulley was a Chairman of the Young Men's Committee, National Council of Y.M.C.A.'s in Canada.

Mr. McCulley has recently been appointed Warden of Hart House, University of Toronto, and will assume his new duties on August 1st, 1952.

ANNUAL WINTER CLINIC

Group Clinician: DR. OLIVER C. APPLGATE, D.D.Sc.

Subject: "Two Critical Phases of Partial Denture Service." The clinician will present an illustrated (kodachrome slides) discussion. This is a clinic that should appeal to the general practitioner. Careful evaluation of each case helps to avoid complications.

Clinician—Dr. Applegate graduated from the University of Michigan in 1917. He is a professor of Dentistry at the University of Michigan and is a member of the A.D.A.

Group Clinician: DR. GEORGE A. MORGAN

Subject—"Exodontia, 101 practical tips." This clinic is expressly for the general practitioner. The time will be devoted to the many pre-operative precautions necessary in the avoidance of surgical pit-falls. Information on how to use clinical observations coupled with intelligent dental x-ray interpretation will be stressed. Post-operative treatment of the more common after results of dental surgery will be discussed.

Surgical procedures will be illustrated by coloured motion pictures. Problems in differential diagnosis illustrated on a Thompson Lucite screen.

Clinician Dr. Morgan graduated from the University of Toronto, 1930. He was a fellow in the section on dental surgery, Mayo Clinic, Rochester, Minn., 1931-34, and in charge of the Out-patients dental dept. of St. Michael's Hospital.

He is Past President of the Ontario Society of Oral Surgeons and a member of the American Society of Oral Surgeons.

DENTAL PUBLIC HEALTH

Ever increasing interest is being taken by the people of Toronto in Dental Public as evidenced by the continuous request for speakers to address groups, such as Home and School Associations, Teacher-Parent Groups, Red Cross, Service Clubs, etc.

Your committee has endeavoured, where humanly possible, to provide a speaker for each request. We and you are indebted to the very faithful group of our members who have given much of their time to address these groups. Altogether about 40 such meetings were covered in the Toronto area.

The demand for speakers is on the increase and to be of help to those fellows who would like to take part in this worthy project a study group in Public Speaking is being formed. If you are interested contact the chairman of the study groups.

It is up to us to give to the public all and any authentic information that will enable us and them to decrease the incidence of dental disease. This information can best be given to the public in two ways (1) by taking on an assignment to address a group when called upon (2) by talking and practising Dental Public Health in your offices.

To all who assisted in this work in Toronto and area in the last year, may we once again express our thanks, you did a grand job, keep up the good work.

FIRST STATED MEETING

OSLER HALL

8.15 p.m.

WEDNESDAY, JANUARY 14th, 1953

Essayist: GORDON H. ROVELSTAD, D.D.S., M.S.D.

Subject: "The Dentists' Responsibility to the Child Patient"

The discussion will be centred around the importance of the childhood years towards the development of good oral health. Dental infections and consequences of their neglect will be discussed and illustrated. A practical program of office procedure for the child patient will be considered in terms of preventive dentistry. All will be correlated with the known dental needs of school and preschool children.

Dr. Rovelstad graduated from Northwestern University in 1944 and obtained his M.S.D. in 1948, majoring in pedodontics. He served in the U.S. Navy Dental Corps 1944-46. He is assistant professor of pedodontics, Northwestern University, head of the dental department. The Children's Memorial Hospital, Chicago, and maintains a private practice limited to pedodontics in Elgin, Illinois.

REPORT OF THE SECRETARY, 1951-52

I am privileged as Secretary of the Academy of Dentistry to present a review of the activities for the year 1951-52.

The annual dinner was held in the Royal York Hotel with an excellent attendance. His Excellency Mohammed Ali was invited to address the meeting. His address was instructive and inspiring.

The three stated meetings were held in the Royal Ontario Museum. The clinicians were Dr. Paul Losch, Dr. G. Nikiforuk and Dr. L. Burket. These men are specialists in their own field and were very enjoyable and informative to those who attended.

The winter clinic was convened by our President-elect, Dr. J. Gordon Chalmers. The clinic enjoyed a good attendance of the fellows and was highly successful. Mr. Pete McGillen, journalist, was the speaker at the noon luncheon.

The dental public health committee with Dr. E. A. White as chairman, has had a very successful year. Excusal cards for dental appointments for the primary school pupils were introduced. This innovation should prove useful to our fellows in the years ahead. Dr. White was also appointed as the academy representative on the Toronto Welfare Council.

Dr.*Chas. McLean has continued as chairman of the Blue Cross Plan, a service to the fellows of our Academy.

The Academy of Dentistry award to the Faculty of Dentistry was won by John A. Davidson of Jessopville, Ontario.

E. J. HENDERSON.

PLAN FOR HOSPITAL CARE

The sum of \$10,017.45 was collected from 250 Fellows during 1951 for the Academy of Dentistry, Toronto, Group of the Blue Cross Plan for hospital care.

The Group has been closed for the past two years against new members. Those, who may wish to participate in the Blue Cross Plan, should apply directly to their offices at 135 St. Clair Avenue West. These applications will be accepted as individuals.

CHARLES McLEAN, chairman,
Plan for Hospital Care

SECOND STATED MEETING

OSLER HALL

8.15 p.m.

WEDNESDAY, FEBRUARY 18, 1953

Essayist: WALDEMAR A. LINK, A.B., B.S., D.D.S.

Subject: The Amalgam Problem in Operative Dentistry.

Amalgam presents a strange paradox. It is the most widely used of all restorative materials, yet the least thought of. A better understanding of the indications for its use, physical properties and manipulation of this filling material will place it on a pedestal where it belongs.

The speaker will discuss the following in detail:

- A. Indications for the use of amalgam.
- B. Alloy selection.
- C. Cavity preparation.
- D. Matrix application.
- E. Condensation.
- F. Finishing and polishing.

Numerous slides will help the listener to comprehend and appreciate the importance of observing a definite pattern of cavity design and manipulation of amalgam. A coloured motion picture will show the entire technic of placing a two-surface amalgam restoration, from cavity preparation to final polishing.

Dr. Link is a graduate of the University of Nebraska, College of Dentistry, a Fellow of the American College of Dentists, Assistant Professor of Operative Dentistry, Percy Jones Army Hospital, Battle Creek, Michigan. He maintains a private practice.

THIRD STATED MEETING

OSLER HALL

8.15 p.m.

WEDNESDAY, MARCH 11, 1952

Essayist: W. G. McINTOSH, D.D.S., F.A.C.D.

Subject: "Periodontal Service in General Practice."

Most of the disturbances that affect the periodontal tissues are more readily controlled if they are recognized and treatment is instituted in the very early stages.

It is intended therefore to briefly discuss some of the early signs and symptoms of gingival and periodontal disturbances, and to suggest their significance and methods presently being used for their treatment.

The general practitioner is usually the first to see these abnormalities and if he will recognize them and institute treatment at the earliest opportunity much can be accomplished in the way of preventive periodontics.

Dr. McIntosh graduated from the University of Toronto in 1937 and was in general practice for five years. A member of the R.C.D.C., he was attached to the Air Force 1942-46. His practice has been limited to periodontics from 1946 to the present time.

Dr. McIntosh is Associate professor of periodontics at the University of Toronto, a fellow of the American College of Dentists, consultant in periodontics at Sunnybrook Hospital and the Hospital for Sick Children in Toronto.

President L. E. Riddolls

Vice-President H. E. Leslie

Secretary-Treasurer R. Leuty

The Orthodontic Club presents an excellent report for the past season, and the programme for 1952-53 promises to be of even higher calibre.

The first George Grieve Memorial lecture was given by Dr. Gerald Franklin of Montreal during the annual meeting of the Canadian Dental Association at Ottawa. This excellent presentation was subsequently published in the Canadian Dental Journal.

The club will commence its 1952-53 season by acting as hosts for the annual meeting of the Great Lakes Society of Orthodontists. This will be held at the Royal York Hotel, November 9th, 10th, 11th, and 12th. Our own Dr. Holly Halderson is the President.

The second George Grieve Memorial lecture will be presented in conjunction with this meeting. It will be given by Dr. Spencer Atkinson of Pasadena, California, on Monday, November 10th, in Convocation Hall. His subject will be of the greatest interest and value to all interested in health. All dentists, physicians and nurses are cordially invited.

THE TREASURER'S REPORT

May 7th, 1952

The Academy of Dentistry,
Toronto, Ontario.

Gentlemen:

We have prepared the attached balance sheet of the Academy of Dentistry as at 30th April, 1952, with a revenue and expenditure account. Subject to the following report, we hereby certify that, in our opinion, the attached balance sheet is properly drawn up so as to exhibit a true and correct view of the state of the Academy's affairs at that date, according to the explanations and information given us and is shown by the books.

We report upon the various balance sheet items in their order as follows:

ASSETS

Cash in bank \$ 1,232.40

Your bankers have confirmed the balance to us by certificate.

Dominion of Canada Bonds \$ 5,564.72

Details are shown on the face of the balance sheet. We have verified the interest revenue due from these bonds. We have examined the bonds comprising the above total.

LIABILITIES

Accounts Payable nil

PROFIT AND LOSS

Details are shown on Schedule "A"

A comparison of the total revenues and expenses for the current year with the preceding one is as follows:

For the year ended	Apr. 30, 1952	Apr. 30, 1951
Total Revenue	\$ 5,334.99	\$ 5,307.71
Total Expenses	5,822.91	5,270.57

Surplus or deficit for the year	\$ 487.92	\$ 37.14
--------------------------------------	-----------	----------

As we were unable to make a complete verification of the sources of revenue, we are, accordingly, able to certify to the correctness of the revenue account only to the extent that it is in agreement with the books and information given us.

Yours faithfully,

HILL, TESKEY & CO., Chartered Accountants.
